JB-POWER HIGH PERFORMANCE PARTS
COMPLETE MACHINE

ZEPHYR750

JB-POWER COMPLETE MACHINE

KAWASAKI ZEPHYR750

In 1990 Kawasaki created the Zephyr 750 as a successor to the legendary Z650. The Z650 is well-known among its many fans under the nickname Zapper, a coined word that originates from the sound of cutting through the wind, referring to combining compact lightness, nimble agility and motive performance. After several scaled up 738cc engines models, like FXⅡ/FXⅢ and GPZ750F, the release of the Zephyr 750 Final Edition in 2007, completed thirty years of glorious Zappers history. While maintaining a compact, light engine and body, the power weight ratio has been greatly improved. Judging from the small and modest appearance it is difficult to imagine yet it has the potential to be rightfully called a hyper naked. Ultra-light 18-inch wheels, radial tires, new suspension, brakes etc. transformed the Zephyr 750 into a hyper bike of an entirely new dimension. Riders who experience its ease of handling, lightness and stability are easily taken captive by a bike that conveys the true joy of riding motorcycles.

EXHAUST

JB-POWER
HIGH PERFORMANCE PARTSHAND BEND TITANIUM
EXHAUST SYSTEM

JB-POWER Exhaust System
[4into1, Titanium Silencer]
¥ 250,000.-
